

Multifamily Consolidated Request for Proposals and Housing Tax Credits: Selection Framework and Final Scores

Overview of the Multifamily Consolidated RFP and HTC Rounds 1 and 2

This selection framework applies to the following Minnesota Housing Multifamily Request for Proposal (RFP) processes:

- The Multifamily Consolidated RFP
- Housing Tax Credit (HTC) Round 1
- HTC Round 2

The Multifamily Consolidated RFP is offered once per year and provides a means of "one stop shopping" by consolidating and coordinating multiple federal and state capital funding resources into one application process. Applicants request funding for a specific housing development proposal and generally do not apply for specific funding sources.

HTC Round 1 offers competitive federal 9% HTCs through the Multifamily Consolidated RFP and generally uses a forward selection process with selections taking place in the fall of the year preceding the allocation year of the HTCs.

HTC Round 2 makes available for allocation any competitive 9% HTCs remaining since HTC Round 1 or returned from previous HTC funding rounds. In addition, HTC Round 2 establishes a waiting list for HTCs that may be returned, and projects located in suballocator jurisdictions may apply directly to Minnesota Housing. Projects that meet the supplemental priority referenced in the related [Qualified Allocation Plan \(QAP\)](#) will have priority over other applicants in Round 2 and under the waiting list.

Overview of Selection Framework

Applications are evaluated for eligibility as detailed in the [Multifamily RFP Standards](#). Next, applications are ranked and scored based on the Agency selection priorities and selection criteria that align with the [Agency Strategic Plan](#), QAP and are outlined in the [Self-Scoring Worksheet](#).

Each funding source offered through the Multifamily Consolidated RFP is governed by separate requirements including requirements set by statute, rules, or program guides, which provide a variety of preferences, priorities, and requirements for projects that are selected for funding. The allocation of HTC's is governed by the State of Minnesota [2024-2025 QAP](#), the [Self-Scoring Worksheet](#) and the Scoring Guide. Applicants who are applying for competitive 9% HTC's or deferred loans with 4% HTC's should consult these documents. Minnesota Housing overlays funding requirements during the feasibility review to best match proposals to available resources.

Non-Select Criteria

A proposal not selected for further processing is due to one or more of the criteria outlined below. Information on each item can be found in the [Multifamily RFP Standards](#).

- Insufficient resources
- Geographic balance/Strategic Plan/Amount of funding requested
- Ineligible application
- Ineligible due to financial and organizational capacity
- Ineligible due to project feasibility
- Deferred loan funding priorities

Minnesota Housing will provide an opportunity for all non-selected applicants to receive a debrief on their application. Minnesota Housing also offers technical assistance to provide guidance on submitting a competitive application.
